

Candiolo, Holiday Season 2024

Once again this Christmas, our greatest wish is **to contribute significantly to the fight against cancer**. This has been our goal for over 38 years, supporting the care and cancer research at the Candiolo Cancer Institute - IRCCS, to provide increasingly targeted therapies and a better quality of life for patients.

With their donation to the **Fondazione Piemontese per la Ricerca sul Cancro, Armo S.p.A.** has chosen to make a heartfelt decision—a tangible gesture that can truly make a difference. By supporting the doctors and researchers of Candiolo Cancer Institute – IRCCS, **Armo S.p.A.** has chosen to ensure the continuity of the work of **300 Italian and international researchers**, guarantee over **1.3 million outpatient services** per year, and make the most innovative technologies accessible.

Armo S.p.A. has also chosen to involve employees and collaborators in this project, giving this Christmas an even greater value: **more care, more research, more future**.

In these complex and fast-paced times, the hope for a brighter tomorrow is also built on generosity and trust. For this, we are deeply grateful **Armo S.p.A.**, whose generosity strengthens our commitment, which never slows down, not even during the holidays.

With the hope of **continuing new projects together in 2025**, I extend our warmest wishes for a Merry Christmas and a Happy New Year to you and your loved ones.

The President

(Allegra Agnelli)
